MODIFICATIONS TO THE CONTRACT

1. The attachment entitled "GOVERNMENT FURNISHED SPACE" has been modified. The text is as follows:

CONTRACTOR SPACE FOR ESAT IN REGION 4 ATHENS AND ATLANTA LOCATIONS

The following is a listing of locations within the US EPA, SESD in Athens and Regional Office in the Atlanta Federal Center in Atlanta designated for contractor use.

U.S. EPA, Region 4
Science and Ecosystems Support Division
980 College Station Road
Athens, Georgia 30605

U.S. EPA, Region 4
Waste Management Division
Sam Nunn Atlanta Federal Center
61 Forsyth Street, S.W.
Atlanta, Georgia 30303

U.S. EPA, SESD Field Equipment Center
395 Commerce Boulevard
Bogart, Georgia 30622

Location	Room Number	Task Area	Size (Sq. Ft)	Contract Personnel
US EPA, SESD	E106	Semivolatile Prepration	672	1
US EPA, SESD	E100	XRF, Semivolatile Screening GC	504	2
US EPA, SESD	D109	VOA/GC/MS, VOA Screening GC	462	2
US EPA, SESD	B104	Cubicle	108	1
US EPA, SESD	A100P	Office	256	2
US EPA, SESD	F114	Culture Laboratory	792	1*
US EPA, SESD	E113	Metals Preparation Laboratory	528	1
US EPA, SESD	B106	PM2.5 Air Laboratory	644	3*
US EPA, SESD	F106	Soil/Sediment Laboratory	672	2*
US EPA, SESD	F104	Cubicle	108	1
US EPA, SESD	D118	Cubicle	108	2
Field Equip. Center	NA	Field Equipment Decontamination & Storage	11,583	1 - 2*

Atlanta Fed. Center	NA	Cubicle	80	1
------------------------	----	---------	----	---

* Provided for with buy-in dollars other than Superfund.

The contractor will also need to provide space within the Athens, Georgia area in order to provide services in all task areas described in the statement of work.

AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT			1. CONTRACT ID CODE	PAGE OF PAGES 1 8

STANDARD FORM 30 (REV 10-83)
Prescribed by GSA
FAR (48 CFR) 52.243

MODIFICATIONS TO THE CONTRACT

1. The Section G clause entitled "GOVERNMENT PROPERTY (EP 52.245-100) (APR 1998) DEVIATION" has been modified. The text is as follows:

(a) The contractor shall not fabricate or acquire, on behalf of the Government, either directly or indirectly through a subcontract, any item of property without written approval from the Contracting Officer.

(b) In accordance with paragraph (a) above, the contractor is authorized to acquire and/or fabricate the equipment listed below for use in the performance of this contract. The equipment is subject to the provisions of the "Government Property" clause.

NONE

(c) The Government will provide the following item(s) of Government property to the contractor for use in the performance of this contract. This property shall be used and maintained by the contractor in accordance with the provisions of the "Government Property" clause.

See Attachment 3

(d) The Government will provide the Contractor as Government-furnished property (GFP) on a non-interference basis, for use in connection with and under the terms of the contract, the following property on a shared basis. The Contractor is responsible for using, operating and maintaining this equipment.

See Attachment 4

(e) The Government will provide the following items(s) of Government property "As Is" to the contractor for use in the performance of this contract. This property shall be used and maintained by the contractor in accordance with the provisions of this "Government Property" clause and FAR 52.245-19 "Government Property Furnished - As Is."

See Attachment 5

(f) The "EPA Contract Property Administration Requirements," provided below, apply to this contract.

**U.S. Environmental Protection Agency
PROPERTY ADMINISTRATION REQUIREMENTS (PAR)**

1. **PURPOSE.** This document sets forth the requirements for Environmental Protection Agency (EPA) contractors in the performance of their Government property management responsibilities under contracts with EPA. These requirements supplement those contained in the Government property clause(s) in this contract, and Part 45 of the Federal Acquisition Regulation (FAR).

2. DELEGATION OF CONTRACT PROPERTY ADMINISTRATION. EPA has delegated much of its contract property management oversight to the Defense Contract Management Agency (DCMA). Shortly after award of a contract, the EPA contracting officer (CO) delegates the functions of property administration and plant clearance (disposal) for the contract to DCMA. Upon acceptance of that delegation, DCMA will provide notification to the contractor, identifying the assigned property administrator (PA) and plant clearance officer (PLCO). If the contract is not delegated to DCMA for administration, any reference to PA and PLCO throughout this document shall be construed to mean CO. The DCMA PA is available to the contractor for assistance in all matters of property administration. Notwithstanding the delegation, as necessary, the contractor may contact their EPA CO. In the event of disagreement between the contractor and the DCMA PA, the contractor should seek resolution from the CO.

Unless otherwise directed in the contract, or this document, all originals of written information or reports, except direct correspondence between the contractor and the DCMA PA, relative to Government property, should be forwarded to the administrative CO assigned to this contract.

3. REQUESTS FOR GOVERNMENT PROPERTY.

- a. In accordance with FAR 45.102, the contractor shall furnish all property required for performing Government contracts. If a contractor believes that Government facilities are required for performance of the contract, the contractor shall submit a written request to the CO. At a minimum the request shall contain the following elements:
 - 1. Contract number for which the facilities are required.
 - 2. An item(s) description, quantity and estimated cost.
 - 3. Certification that no like contractor facilities exist which could be utilized.
 - 4. A detailed description of the task-related purpose of the facilities.
 - 5. Explanation of negative impact if facilities are not provided by the Government.
 - 6. If applicable, recommend the exception under FAR 45.302-1(a) or EPA's class deviation (available upon request), and provide any other information which would support the furnishing of facilities, including contractor-acquired property (CAP).
 - 7. Except when the request is for material, a lease versus purchase analysis shall be furnished with the request to acquire property on behalf of the Government.

The contractor may not proceed with acquisition on behalf of the Government until receipt of written authorization from the EPA CO.

4. TRANSFER OF GOVERNMENT PROPERTY. When the contractor receives

Government-furnished property (GFP), the contractor should receive, from the transferor, (either EPA or another contractor) all of the applicable data elements (Attachment 1 of this clause) needed to maintain the required records. If this information is not provided at the time of receipt of the property, the contractor shall request it from the EPA CO. The CO will attempt to obtain the data from the previous property holder, or, if data does not exist, will assist the current property holder in estimating the elements. Prior to signing an acceptance document for the property, the receiving contractor should perform a complete inventory of the property. Responsibility, as well as accountability, passes with the signed acceptance.

When, at the written direction of the EPA CO, the contractor transfers GFP to another contractor, or another Agency, the contractor shall provide the applicable data elements (Attachment 1 of this clause). Upon return of the property to EPA, the same data must be provided, by the contractor, to the EPA CO.

5. RECORDS OF GOVERNMENT PROPERTY.

- a. In accordance with FAR 45.505 and 45.505-1, the contractor shall establish and maintain adequate property records for all Government property, regardless of value, including property provided to and in the possession of a subcontractor. Material (supplies) provided by the Government or acquired by the contractor and billed as a direct charge to the Government is Government property and records must be established as such.
- b. The contractor shall establish and maintain the official Government property record. (If the contract contains the FAR Clause 52.245-1, the Government will maintain the official Government property records.) Such records shall contain the applicable data elements (Attachment 1 of this clause) for all items of Government property regardless of cost.
- c. The Contractor shall identify all Superfund property and designate it as such both on the item and on the official Government property record. If it is not practicable to tag the item, the contractor shall write the ID number on a tag, card or other entity that may be kept with the item or in a file.
- d. Support documentation used for posting entries to the property record shall provide complete, current and auditable data. Entries shall be posted to the record in a timely manner following an action.
- e. For Government vehicles, in addition to the data elements required by EPA, the contractor shall also comply with the General Services Administration (GSA) and Department of Energy (DOE) record and report requirements supplied with all EPA provided motor vehicles. If the above requirements were not provided with the vehicle, the contractor shall notify the EPA CO.
- f. When Government property is disclosed to be in the possession or control of the contractor but not provided under any contract, the

contractor shall record and report the property in accordance with FAR 45.502(f) and (h).

6. INVENTORIES OF GOVERNMENT PROPERTY. The Contractor shall conduct a complete physical inventory of EPA property at least once per year, unless otherwise directed by the PA. Reconciliation shall be completed within 30 calendar days of inventory completion. The contractor shall report the results of the inventory, including any discrepancies, to the DCMA PA upon completion of the reconciliation. The contractor's records shall indicate the completion date of the inventory.

See Section 9 herein, Contract Closeout, for information on final inventories.

7. REPORTS OF GOVERNMENT PROPERTY. In accordance with FAR 45.505-14, EPA requires an annual summary report, for each contract, by contract number, of Government property in the contractor's possession as of September 30 each year.

- a. For each classification listed in FAR 45.505-14(a), except material, the contractor shall provide the total acquisition cost and total quantity. If there are zero items in a classification, or if there is an ending balance of zero, the classification must be listed with zeros in the quantity and acquisition cost columns.
- b. For material, the contractor shall provide the total acquisition cost only.
- c. Property classified as facilities, special tooling, special test equipment, and agency peculiar must be reported on two separate lines. The first line shall include the total acquisition cost and quantity of all items or systems with a unit acquisition cost of \$25,000 or more. The second line shall include the total acquisition cost and quantity of all items with a unit acquisition cost of less than \$25,000.
- d. For items comprising a system, which is defined as "a group of interacting items functioning as a complex whole," the contractor may maintain the record as a system noting all components of the system under the main component or maintain individual records for each item. However, for the annual report of Government property the components must be reported as a **system** with one total dollar amount for the system, if that system total is \$25,000 or more.
- e. The reports are to be **received** at EPA and DCMA no later than October 31 of each year.
- f. Distribution shall be as follows:

Original to: EPA CO

1 copy: DCMA PA

- g. EPA Contractors are required to comply with GSA's and DOE's special reporting requirements for motor vehicles. A statement of these requirements will be provided by the EPA Facility Management

and Services Division (FMSD) concurrent with receipt of each vehicle.

- h. The contractor shall provide detailed reports on an as-needed basis, as may be requested by the CO or the PA.

8. DISPOSITION OF GOVERNMENT PROPERTY. The disposition process is composed of three distinct phases: identification of excess property, reporting of excess property, and final disposition.

- a. Identification of Excess Property. The disposition process begins with the **contractor** identifying Government property that is excess to its contract. **Effective contractor property control systems provide for disclosing excesses as they occur.** Once inactive Government property has been determined to be excess to the contract to which it is accountable, it must be screened against the contractor's other EPA contracts for further use. If the property may be reutilized, the contractor shall notify the CO, in writing. Government property will be transferred to other contracts only when the COs on both the current contract and the receiving contract authorize such a transfer in writing.
- b. Reporting Excess Government Property. Excess Government property shall be reported in accordance with FAR Subpart 45.6. Inventory schedules A-E (SF Forms 1426 - 1434) provide the format for reporting of excess Government property. Instructions for completing the forms are located at FAR 45.606-5 and samples may be found in FAR 53.301-1426 thru 1434. Inventory schedules shall be forwarded to the DCMA PLCO with a copy to the EPA CO. The cover letter, which accompanies the inventory schedules, must include the EPA CO's name, address and telephone number. Inventory schedules must also contain a notification if the property is Superfund property. If the property is Superfund property, the contractor must also prominently include the following language on the inventory schedule: **"NOTE TO PLCO: Reimbursement to the EPA Superfund is required."** When requested, by the PLCO or the CO, the contractor will provide the fair market value for those items requested.
- c. Disposition Instructions.
 1. If directed in writing by the EPA CO, the contractor will retain all or part of the excess Government property under the current contract for possible future requirements. The contractor shall request, from the PLCO, withdrawal from the inventory schedule of those items to be retained.
 2. If directed in writing by the EPA CO, the contractor shall transfer the property to another EPA contractor. The contractor will transfer the property by shipping it in accordance with the instructions provided by the CO. The contractor shall request, from the PLCO, withdrawal from the inventory schedule of those items to be transferred. Further, the contractor shall notify the CO when the transfer is complete.

3. If directed in writing by the EPA CO, the contractor shall transfer the property to EPA. The contractor shall ship/deliver the property in accordance with the instructions provided by the CO. The contractor will request, from the PLCO, withdrawal from the inventory schedule of those items to be transferred to EPA. Further, the contractor shall notify the CO when the transfer is complete.

4. The contractor will ship the property elsewhere if directed, in writing, by the PLCO.

5. The PLCO will either conduct the sale or instruct the contractor to conduct a sale of surplus property. The contractor will allow prospective bidders access to property offered for sale.

6. Property abandoned by the PLCO on the contractor's site must be disposed of in a manner that does not endanger the health and safety of the public.

7. To effect transfer of accountability, the contractor shall provide the recipient of the property with the applicable data elements set forth in Attachment 1 of this clause. The contractor shall also obtain either a signed receipt from the recipient, or proof of shipment. The contractor shall update the official Government property record to indicate the disposition of the item and to close the record.

9. CONTRACT CLOSEOUT. The contractor shall complete a physical inventory of all Government property at contract completion and the results, including any discrepancies, shall be reported to the DCMA PA. In the case of a terminated contract, the contractor shall comply with the inventory requirements set forth in the applicable termination clause. The results of the inventory, as well as a detailed inventory listing, must be forwarded to the CO. For terminated contracts, the contractor will conduct and report the inventory results as directed by the CO.

However, in order to expedite the disposal process, contractors may be required to, or may elect to submit to the CO, an inventory schedule for disposal purposes up to six (6) months prior to contract completion. If such an inventory schedule is prepared, the contractor must indicate the earliest date that each item may be disposed.

The contractor shall update all property records to show disposal action. The contractor shall notify the DCMA PA, in writing, when all work has been completed under the contract and all Government property accountable to the contract has been disposed.

Attachment 1 to EP 52.245-100 (APR 1998) DEV

REQUIRED DATA ELEMENTS. Where applicable (all elements are not applicable to material) the contractor is required to maintain, at a minimum, the information related to the following data elements for EPA Government

property:

Contractor Identification/Tag Number
 Description
 Manufacturer
 Model
 Serial Number
 Acquisition Date
 Date received
 Acquisition Cost *
 Acquisition Document Number
 Location
 Contract Number
 Account Number (if supplied)
 Superfund (Yes/No)
 Inventory Performance Date
 Disposition Date

* Acquisition cost shall include the price of the item plus all taxes, transportation and installation charges allocable to that item.

NOTE: For items comprising a system which is defined as, "a group of interacting items functioning as a complex whole," the contractor may maintain the record as a system noting all components of the system under the main component or maintain individual records for each item. However, for the Annual Report of Government Property the components must be reported as a **system** with one total dollar amount for the system, if that system total is \$25,000 or more.

(g) The contractor will be allowed to use, on an episodic basis only, government owned/leased vehicles at the Region 4 Laboratory, when documented (similarly to(f)3 above) and approved as being in the best interests of EPA. Approval for episodic use is delegated to the Project Officer.

MODIFICATIONS TO THE CONTRACT

1. The Section G clause entitled "PAYMENT OF FEE UNDER COST-PLUS-FIXED-FEE TASK ORDERS" has been modified. The text is as follows:

(a) The term "fee" in this clause refers to the fixed fee for the task orders awarded on a cost-plus-fixed-fee basis.

(b) For cost-plus-fixed fee, completion type task orders, the Government will make fee payment upon successful completion of the task order. If the work cannot be completed within the estimated cost the Government can elect to require more work and effort from the contractor without an increase in fee provided it increases the estimated cost of the order.

(1) Provisional payment of fee will be permitted for cost-plus-fixed-fee, completion-type task orders. Payment of fee is not to exceed 85% of the ratio of the negotiated fee to the negotiated cost, multiplied by the billed invoice costs (exclusive of fee).

(c) For level-of-effort, term type task orders, the Government will make provisional fee payments on the basis of percentage of work completed. Percentage of work completed is the ratio of direct labor hours performed to the direct labor hours ordered in an individual task order. In the event the contractor provides less than 90% of the specified level of effort, an equitable downward adjustment of the fixed fee for that task order will be made. The Government may require the Contractor to provide additional effort up to 110 percent of the level of effort for any task order until the estimated cost for that task order has been reached. However, this additional effort shall not result in any increase in the fixed fee, if any.

Duly warranted Contracting Officers of EPA Region 4 Procurement Section, acting within their authority, may perform and sign as the Administrative Contracting Officer (ACO) for specific actions in the absence of the above listed ACO.

2. The Section I clause entitled "PAYMENT FOR OVERTIME PREMIUMS (FAR 52.222-2) (JUL 1990)" has been modified. The text is as follows:

(a) The use of overtime is authorized under this contract if the overtime premium cost does not exceed **\$2700** or the overtime premium is paid for work--

(1) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(2) By indirect-labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(3) To perform tests, industrial processes, laboratory procedures, loading or unloading of transportation conveyances, and operations in flight or afloat that are continuous in nature and cannot reasonably be interrupted or completed otherwise; or

(4) That will result in lower overall costs to the Government.

(b) Any request for estimated overtime premiums that exceeds the amount specified above shall include all estimated overtime for contract completion and shall--

(1) Identify the work unit; e.g., department or section in which the requested overtime will be used, together with present workload, staffing, and other data of the affected unit sufficient to permit the Contracting Officer to evaluate the necessity for the overtime;

(2) Demonstrate the effect that denial of the request will have on the contract delivery or performance schedule;

(3) Identify the extent to which approval of overtime would affect the performance or payments in connection with other Government contracts, together with identification of each affected contract; and

(4) Provide reasons why the required work cannot be performed by using multishift operations or by employing additional personnel.
